FDJ UNITED – NEW JACKPOT SYSTEM

FDJ Group is introducing an **exclusive new jackpot feature** that takes casino play to the next level. Unlike traditional jackpots tied to a single game, this jackpot is unique because it can be triggered on **any slot game** across participating brands.

So what is it?

- A jackpot system that has been built in conjunction with **FDJ UNITED & Relax Gaming**
- The jackpot will be available across a large selection of slot games from multiple suppliers.
- The jackpot will work on the **'must hit'** mechanic logic, and will have several levels (*different jackpot pools*)
- This means that the jackpot must be won before it hits a certain value.
- The multi-level jackpot will enhance winning possibilities as at any point in time, one of the different levels should be in **"hot"** or **"superhot"** in order continually reward jackpot players.
- The stages **"hot"** & **"superhot"** are defined when the jackpot is nearing the value it needs to be won.

So how does it work?

- **Opt-in Once** - Players simply opt in before they start playing. From then on, their spins on any slot game automatically count towards the jackpot.
- **Shared Contributions** - A fraction of each spin goes directly into one combined jackpot pool. With thousands of players across multiple brands and markets, the price grows rapidly.
- **Global Prize Potential** - The jackpot can drop at any time, on any brand, and for any player who has opted in. This means players are competing for a truly international jackpot prize, rather than being limited to a single market or brand.

HOW IT WORKS

Why is it exciting for the players:

- **Bigger Prizes, Faster** – As contributions come from many brands and markets, the prize pool increases rapidly and can reach much higher levels than local jackpots.
- **Anyone Can Win** – The jackpot is random and can drop on any spin, regardless of how much is wagered. Every spin counts.
- **Global Connection** – Players love the idea of competing for a jackpot that stretches across multiple brands and regions, creating a sense of being part of something bigger.
- **Seamless Gameplay** – Once a player opts in, everything runs automatically in the background. There's no extra step needed during gameplay.

Key Highlights

- **Exclusive to FDJ Group** – the first of its kind in the market.
- **Available on any slot game** – not restricted to just one or two titles.
- Massive winning potential – customers can **win up to €500,000**.
- **Ever-growing prize** – the jackpot increases continuously until it's won.
- Launch Date: **2 September** – the countdown is on!
- **Live landing pages** - Customer landing pages will show **real-time jackpot progression**, making it easy for players to follow along.
